GNG to PNGVN **Our Ecosystem Overview**

The PNGVN ecosystem, known as the PNGVN family, is a comprehensive platform centered around our brand-building NFT. This core product serves as a gateway to numerous opportunities, enabling users to enter, earn, and learn seamlessly.

Holders of our brand-building NFT receive PNGVN tokens, which provide quarterly dividends. Additionally, they can invite others to join our dynamic community and participate in the PNGVN Index—the world's first tokenized fund. This innovation secures long-term investments in both the NFT and Cryptocurrency Markets.

Executive Summary

This report summarises Global NFT Group's (GNG) performance over the past two years, highlighting key achievements, delivery results, and future strategic direction. Year two has built upon the significant progress made in year one, further solidifying GNG's position as a leader in the innovative hybrid NFT and community-driven investment model space. We have consistently delivered on our promises, exceeding several key metrics and demonstrating the strength and viability of our business model.

A Vision Realized

Two years ago, we embarked on an ambitious journey to create a revolutionary NFT ecosystem. Our vision was simple: build a thriving community empowered by innovation, rewarded by success, and united by a shared passion. Today, we're proud to share an incredible story of growth, collaboration, and continued achievement – a testament to the power of our community and the strength of our unique business model.

Year One: Laying the Foundation

Our inaugural year laid the foundation for our remarkable journey. We successfully launched our flagship “Sophisticated Penguins” NFT collection, building a loyal and rapidly growing community. Key achievements include:

COMMUNITY BUILDING

We established a vibrant community of 4 672 passionate individuals from 15+ countries worldwide.

NFT SALES SUCCESS

Our “Sophisticated Penguins” NFTs achieved outstanding sales, generating \$3.7M in revenue, with average sales of \$804.

EARLY TOKENOMICS SUCCESS

We laid the groundwork for the PNGVN token, showcasing its potential as a powerful engine for community growth and financial rewards with 37M tokens distributed in year 1.

Year Two: Continued Innovation

Year two has witnessed sporadic growth, with an increase across all year one foundation metrics. We not only strengthened our foundation but also expanded our reach and innovation more firmly into the WEB3 space:

COMMUNITY EXPANSION

Our community has grown to surpass 7 000 members.

PRODUCT DIVERSIFICATION

The success of our “Sophisticated Penguins” led to the launch of 6 new NFT collections, each uniquely designed to resonate with our diverse community, strengthening our brand and reflecting our diverse community. This has generated \$7.2M in revenue, with average sales of \$1 033.

PNGVN TOKEN TRIUMPH

The PNGVN token had a fantastic listing at \$0.40 cents on Coin Store a centralised exchange and distributing \$1.4M in dividends. The current price of the token is reflective of real market value and will continue to rise as the PNGVN fund grows with investments to date of \$1.8M and continued dividend payouts into the future. This demonstrates the power of our community-driven, dividend-paying model.
